

**Dan Fuleki**

National Research Council, Government of Canada

Mr. Fuleki has a Master's in Mechanical Engineering from Carleton University in Ottawa Canada, and has been working in the aerospace field since 1990 primarily in the research and development of test methods for gas turbines. Mr. Fuleki joined the Gas Turbine Lab at the National Research Council of Canada in 2007 as a Project Manager where he now works in the development and application of test methods related to ice crystal icing.
